SUMMARY

Automation & integration developer building end-to-end systems with n8n, REST APIs and AI agents, from backend orchestration to the conversational interface. I turn manual processes into autonomous workflows across customer service, CRM and operations.

EXPERIENCE

Automation Developer
Solutudo Brasil
Jan 2026 – Jun 2026 · Botucatu, Brazil

• Built and maintained 20+ n8n automation workflows for internal operations and customer service
• Internal automations saved ~4h/day in customer service and ~2h/day across other processes
• System integration via APIs and SQL; prompt engineering for B2B corporate accounts
• Troubleshooting to identify bottlenecks in integrations

Automation Developer (Self-employed)
Pulse Sync
Aug 2025 – Present · Remote

• Independent AI automation venture; build end-to-end products and proofs of concept
• AI-powered CRM: LLM API integration for automatic lead triage and organization

IT Intern
Onmai
Jan 2025 – Feb 2025 · Botucatu, Brazil

• Built 2 internal React dashboards used by the whole team for data visualization

SKILLS

Automation & Integration: n8n (advanced), Webhooks, REST APIs, system integration
AI & LLMs: AI agents (OpenAI/Gemini), RAG, vector database (Qdrant), prompt engineering, Whisper
Dev & Data: Python, JavaScript/Node.js, SQL (PostgreSQL/Supabase), React, JSON
Infra & Tools: Docker, Vercel, Git/GitHub, Redis, self-hosting
AI-assisted development: Cursor, Claude Code, Antigravity
Languages: Portuguese (native), English (TOEIC 870/990 - Gold) professional working proficiency

PROJECTS

AI WhatsApp Personal Assistant — end-to-end multi-agent system (capstone project)
• Daily-use assistant that reads and writes emails, manages calendar and tracks finances via Notion
• Web research to keep context current; long-term memory via vector database (Qdrant)
• Stack: n8n, Supabase, Qdrant, Redis, Docker, Whisper, GPT-5-mini, Gmail & Google Calendar APIs

Pulse Sync & Void Born Projects — web development with AI
• Two company websites built from scratch using AI-assisted development (frontend + deploy)

EDUCATION

FATEC Botucatu
Botucatu, Brazil
Systems Analysis and Development
June 2026

CERTIFICATIONS

TOEIC Listening & Reading — 870/990 (Gold)
ETS · December 2024
English proficiency certification
